#### PROCEDURE

13/08/22- Right vaginal hydrocoelectomy under spinal anaesthesia was done.

#### COURSE IN HOSPITAL

Patient was admitted with complaints of feeling of heaviness in scrotum since 20 years but symptoms worsend 3 days back. General surgeon's opinion was taken and examination was done, which revealed that there was right vaginal hydrocoele. Routine blood investigations were done, which were normal. After a protocol based pre medical , pre anaesthetic checkup and patient was planned for surgery.On 13/08/22- Right vaginal hydrocoelectomy under spinal anaesthesia was done. Post op period was uneventful. Postop dressing was done and patient is being discharged in a stable condition.
